

Honors Chemistry Summer Assignment 2017-18

To prepare for the first few weeks of class please take some time this summer to do the following:

- Memorize the correctly spelled name and chemical symbol for the first 92 elements of the periodic table (except for elements 58 – 71).
- Know the meaning of the metric prefixes kilo-, hecto-, deka-, deci-, centi-, milli-, nano- and pico-

There will be a quiz related to the above information the first week or two of school.
